Profile

I am currently pursuing my studies as a Systems Engineer at the Universidad Nacional Abierta y a distancia. I have the necessary skills to work in the development of computer systems, focusing on the Front-end area, mastering technologies such as HTML, CSS, JavaScript, Frameworks such as Vue.js, Nuxt.js, Vuetify.js, Bulma, Vuesax, among others. With resolutive capacity in the Back-end area integrating technologies like PHP, Node.js, Frameworks like Laravel (PHP) or Loopback (Node.js), Schema creation and SQL data manipulation, with relational databases like MySQL, SQL Server, PostgreSQL and non-relational ones like MongoDB, familiarization with AWS cloud services like S3, EC2, SS, Load Balancer, Lambda Functions, among others. As a worker I stand out for being responsible, committed, with high problem solving skills, I face difficulties assertively, and I have the ability to work individually and/or in groups.

Work Experience
